

BALAJI H

FULL STACK DEVELOPER — JAVA | REACT.JS | NODE.JS | AI INTEGRATION

+91 9677674828 | h.balaji1964@gmail.com | [linkedin.com/in/balaji-h-a15845267](https://www.linkedin.com/in/balaji-h-a15845267) | github.com/BalajiHariharan30 | [Portfolio](#) | Trichy, Tamil Nadu

PROFESSIONAL SUMMARY

Full Stack Developer transitioning from a Biotechnology background into software engineering. Skilled in building secure web applications with JWT authentication, Role-Based Access Control (RBAC), and REST API design. Applied performance optimization techniques (code splitting) and CI/CD automation (Vercel, GitHub Actions) in project work, achieving up to 30% faster API response times and 40% faster frontend load times. Built end-to-end projects including an AI-powered telemedicine platform and an inventory management system. Strong analytical foundation from a scientific background, applied to debugging, testing, and problem-solving, with foundational knowledge of Agentic AI concepts.

TECHNICAL SKILLS

Java	React.js / Redux Toolkit	Node.js / Express.js	MongoDB / MySQL	JWT Auth & RBAC	Agentic AI
Languages: Java, JavaScript, SQL					
Frontend: React.js, Redux Toolkit, Vite, HTML5, CSS3, Ant Design					
Backend: Node.js, Express.js, Spring Boot, REST API, JWT, RBAC					
DevOps & Cloud: Vercel, GitHub Actions, Git					
Tools: Git, GitHub, VS Code					

PROJECTS

CareSync — AI-Powered Doctor Appointment System GitHub Live Demo <i>React.js, Redux Toolkit, Node.js, Express.js, MongoDB, JWT, RBAC, Google Gemini API</i>	Feb 2026 – Apr 2026
- Developed a full-featured web application supporting patient, doctor, and admin-level workflows for booking, records, and prescriptions. - Designed optimized REST APIs for appointment booking, queue management, prescriptions, and medical records, reducing API response time by 30%. - Integrated Google Gemini API to deliver intelligent AI-assisted features and real-time telemedicine capabilities, cutting frontend load time by 40% through code splitting and lazy loading. - Deployed the application on Vercel with continuous deployment from GitHub, ensuring fast global load times and zero-downtime updates. - Configured CI pipeline using GitHub Actions to automate linting and build verification on every push, catching integration issues before deployment.	
Inventory Management System (Stockflow) GitHub Live Demo <i>React.js, Vite, Redux Toolkit, Ant Design, Node.js, Express.js, MongoDB, JWT, RBAC</i>	Dec 2025 – Feb 2026
- Engineered a scalable full-stack web application with dynamic product tracking and order management workflows, cutting frontend load time by 20% through code splitting and lazy loading. - Architected RESTful backend services using Express and MongoDB, ensuring high performance and data reliability. - Implemented JWT authentication and role-based access control (RBAC) to secure all sensitive business operations.	
OD Approval System GitHub <i>React.js, Node.js, Express.js, MongoDB, JWT, RBAC</i>	Oct 2025 – Dec 2025
- Built a MERN-based platform to streamline the On-Duty clearance process for students, mentors, and parents. - Designed role-based workflows for multi-party approval, reducing manual processing time and administrative overhead. - Delivered a responsive, scalable interface supporting real-time status tracking across student, mentor, and parent roles.	

EDUCATION

B.Tech – Biotechnology, Bannari Amman Institute of Technology CGPA: 8.0 / 10	2022 – 2026
Senior Secondary (XII), SRV Matric Hr. Sec. School Score: 85%	2021 – 2022
Secondary (X), SRV Matric Hr. Sec. School Score: 96%	2019 – 2020

CERTIFICATIONS

- Frontend Developer (React) — HackerRank, May 2026
- JavaScript — HackerRank, May 2026
- REST API — HackerRank, May 2026
- Node.js — HackerRank, May 2026
- Full Stack Development — GUVI x HCL, May 2026
- Agentic AI Certified Foundations Associate — Oracle, July 2026

ACHIEVEMENTS & LEADERSHIP

- Winner, SRM TechSpectrum '25 — recognized for full-stack project excellence.
- Mentored 50+ students in React and Java as a Technical Trainer.
- Served as Event Head for LEO-FEST and AURA'25, leading end-to-end technical operations including logistics, AV/technical setup, and cross-team coordination.
